

Summer term 2023 - Toys from the past

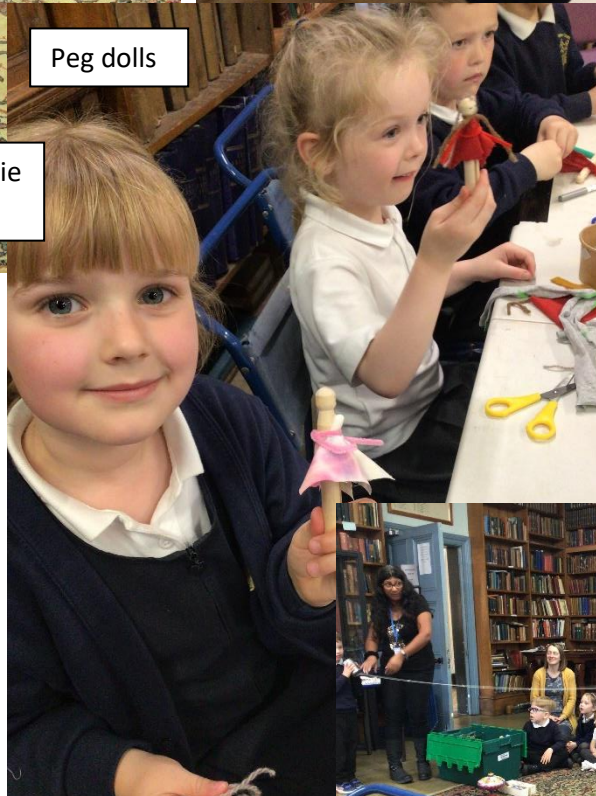

As part of our topic on toys from the past, we visited Torquay Museum. We had the chance to play with some old toys like spinning tops, dolls and puppets. We then had chance to make some homemade toys like peg dolls, thaumatropes, string telephones and 'ball and cups'. After this, we had chance to explore the other exhibits in the museum, including the new Star Wars exhibit.

A homemade ball and cup toy. Archie managed to catch his – well done!

Peg dolls

Making a thaumatrope. A picture on each side is spun so that the pictures appear to be one.

A string telephone
