

# FOREST SCHOOL

This month at Forest School, Reception children have been on a quest with Sir Oakley Bear to help save Princess Hazel Bear.

The children had to work together to complete a selection of different quests in order to collect 5 gold coins to release the princess.

The first challenge involved the children carefully climbing under, over and through a giant spider's web without becoming tangled in the web.

The second challenge involved sneaking past the dragon tunnel with musical treasure, without waking the dragon.

The children impersonated animals in order to climb the enchanted steps, and worked together to problem solve how to cross the sinking swamp.

Finally, the children distracted the hungry hounds which guard the giant's castle by throwing food into their bowls.

Once they had collected all of the golden coins, the children were able to exchange these for keys and release Princess Hazel.

The children enjoyed exploring in the forest, before retelling their adventures around the fire square. The session finished with the Forest School Prayer.
