Dear Parents and Carers,

Unfortunately, we have been informed about a case of headlice in year 3/4.

We ask that all parents check your child's head tonight and treat them with specialist shampoo if you find any live lice or eggs. Many people say that regular shampooing with tea tree shampoo and combing conditioner through hair can help to prevent head lice from becoming an issue.

We do understand that head lice can be an emotive subject and sympathise with the sometimes ongoing nature of the problem.

Can we please remind you that long hair must be tied up at all times as this can help to prevent your child catching headlice.

Thank you for your support.

Karen Strachan
